MORE NEW NAMES.

Strong and Reliable Like the Thousands Before Them.

Continuation of the Remarkable Testimony in Favor of Des. Copeland and Graham's Mathod of Treatment in the Chronic Diseases Amnog Their Specialties - Mrs.

Livermore's Signed

We can safely say, without four of contraletion, that such remarkable testim has been publicly given each week in favor the physicians associated with him, was never before bestowed upon any physician or sys-

Why do these patients feel it a duty and consider it a pleasure to recommend this treatment to their friends and suffering amanity in general?

Pecause, having suffered themselves for years, having paid out large sums without benefit, and having been tortured with severe

benefit, and having been tortured with evere treatment beyond endurance, they want the public to know that there are physicians capable and willing to treat and cure those affections without experimental and unnecessary torture, and who do not charge such excessive fees that but few are able to pay.

Because a physician by the peculiarity of his training and fitness in successfully treating cortain diseases becomes and expert specialist in these diseases, there is no reason why he should be licensed to rob his patients, as many specialists practically do. Drs. Copeland and Graham are satisfied with reasonable fees, and while their work is very laboritous, almost at times beyond endurance, they are willing to devote their time and strength and she best work of their lives to suffering humanity. This is also why persons, who have the welfare of their fellow beings at heart, take pleasure in indorsing the good and humane work Drs. Copeland and Graham are doing every day.

Today, through these colonius, your neighbors and friends speak to you: they have no interest in and no intent of deceiving you; you believe these people in other things, why not read and consider what they say regarding Drs. Copeland and Graham?

Read what Mr. Henry Brandon says.
